#### Notes:

**Course Placement** – ENGL 111G and MATH require placement based on ACT score and HS GPA. If you do not place into these courses, a prerequisite may be required. You can take the Math Placement Exam to attempt to improve your placement in Math and/or Statistics.

**\*Chemistry** – CHEM 111 or CHEM 115 is required for all Engineering majors except Engineering Technology. Biochemistry and Geology majors can take CHEM 111/112 but CHEM 115/116 is preferred. CHEM 115/116 is required for Chemistry and the BS in Physics. Math and Computer Science do not specifically require CHEM 111/112 but those fulfill Gen Ed. Geography majors should take GEOG 111G instead of Chemistry.

**Math** – Geography majors should take STAT 251G or A ST 311 instead of MATH 192G.

**Area IV** – ECON 252G is recommended for all Engineering majors. Math-Actuarial Science requires ECON 251G and ECON 252G. All other majors represented by this Meta Major can choose any course listed under Area IV.

**Area V** – All of the majors represented by this Meta Major can choose any course listed under Area V.

A **Second Language** is required for Geology, Math-General, and Physics. For second language options and placement information, please see your advisor.
